

# Civil Society Organisations Directory

2025

# Foreword

Dear VANGO members and friends,

Welcome to the VANGO 2025 Civil Society Organisations Directory.

Our team has collated this information of the organisations and associations that are operating across Vanuatu. It includes the International NGOs, National NGOs as well as Community Based Organisations and developing associations organised by province.

These organisations are working to make Vanuatu a better place for everyone. Whether it is in areas of community education, health, food security, human rights, WASH, environment, disaster resilience or other charitable purposes, these organisations contribute to the richness of Vanuatu's civil society.

The term 'community based organisation' has been used broadly to include both those that are operating with strong governance, policies and practices in place as well as those that are still developing.

To be included in the Directory, organisations self-nominated and elected the areas in which they focus. There was no requirement for organisations to be VFSC registered and/or financial VANGO members. Instead, the screening was based on whether they identify themselves as serving a charitable purpose in line with the categories included in the Directory and if they have a Board that meets regularly.

Lastly, this Directory is considered a work in progress, able to be added to and updated over time to reflect changes to existing organisations and the identification of new organisations.

If your organisation would like to be included in future editions, be removed from the Directory or request changes, please refer to the form on the VANGO website at [www.vango.vu](http://www.vango.vu). Alternatively you may email: [info@vango.vu](mailto:info@vango.vu) or call 24679.

Sincerely,

Shirley Abraham  
Chief Executive Officer  
VANGO

# BWATU ULIULI

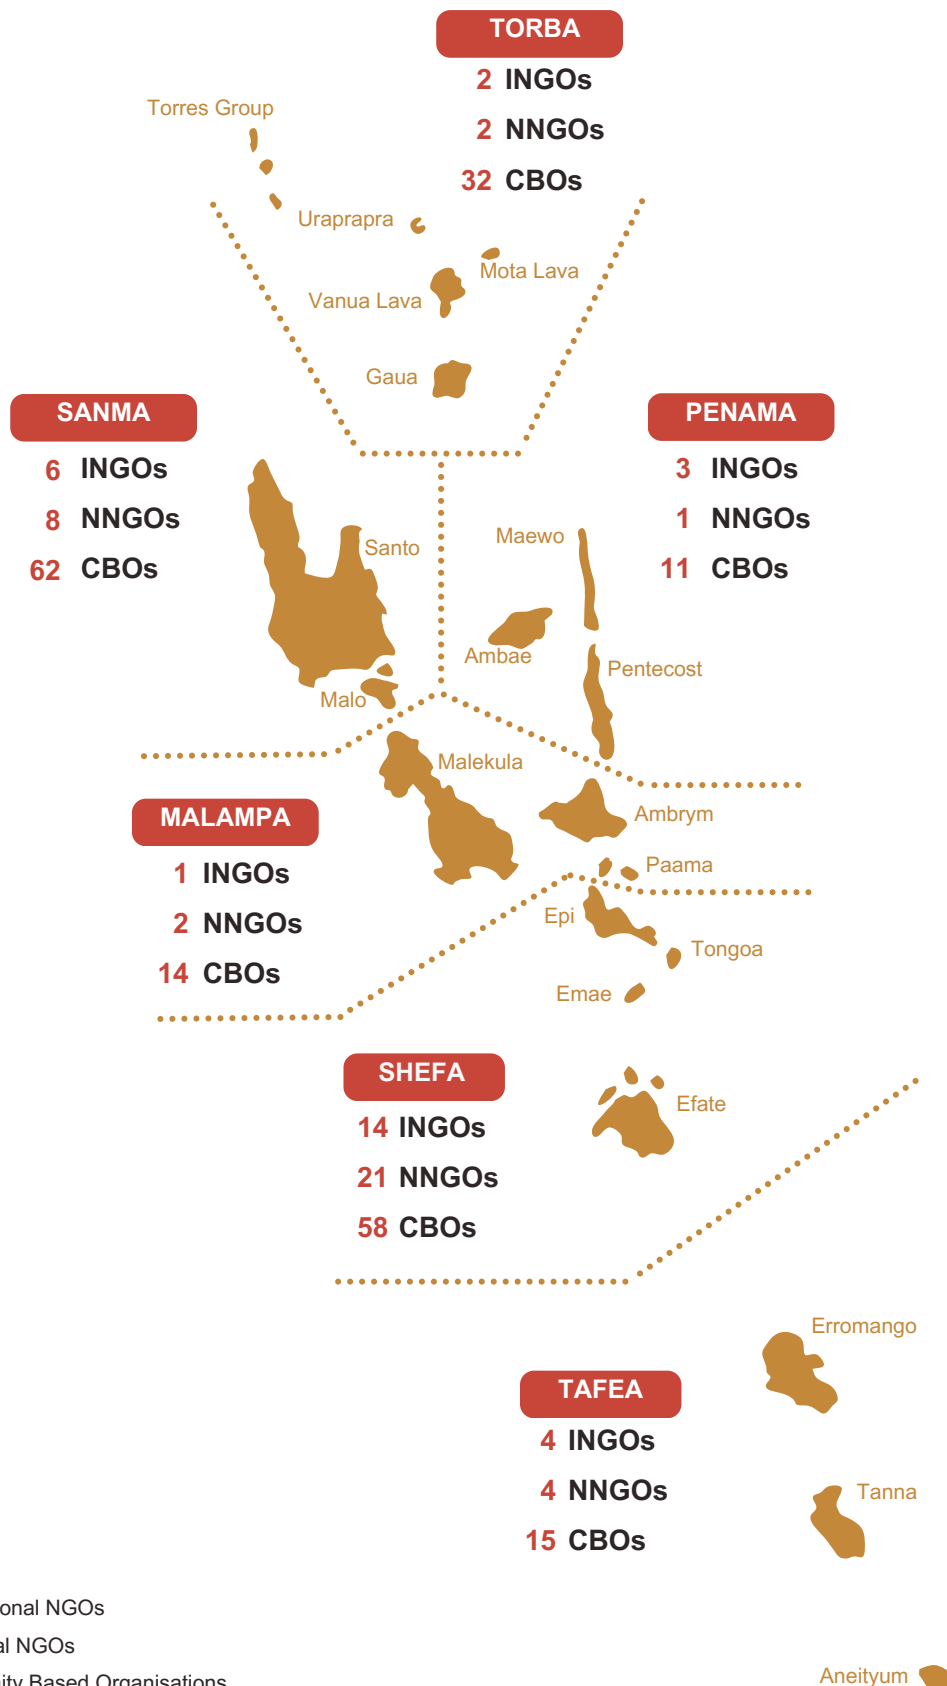

Edgar Hinge Matasangvulu from the Vanuatu Kaljoral Senta created a Bwatu Uliuli (Vanuatu sand drawing) for VANGO. He described the symbol that he created, saying:

*VANGO is our umbrella, it is our Banyan Tree.... we would like to work together in partnership to develop our country in a way that each of the corners of our world, those in the South, the North, the East and the West can enjoy the good future of our country.*

*It means we can have a voice. We can all talk together.*
